TECHNICAL OFFICIALS INTRODUCTORY COURSE AT DAL JOSAPHAT STADIUM, PAARL ON FRIDAY 14 JANUARY 2022

27 Very enthusiastic Candidates from around the Boland Region attended the Boland Athletics Technical Officials Introductory Course at Dal Josaphat Stadium in Paarl on Friday 14 January 2022. They were taken through their paces by Athletics South Africa accredited Technical Officials Lecturers of Boland Athletics Brandon Du Plessis and Rejanè Willemse.

Starting the 2022 Athletics year off by equipping and empowering Technical Officials is acknowledgement of the vital and valuable role that Technical Officials play in the smooth running and success of Athletics events.

Technical Officials don't always get the recognition and appreciation for the sacrifice that they bring to the success of Athletics events.

They are always first at Athletics events, in the early hours of the morning, and last to leave.

They almost always spend 12 hours on duty, in all kinds of weather, ensuring the smooth running of events. And they do this as Volunteers who enjoy what they do, as a service for the success of our athletes. Let's show appreciation for our Technical Officials.

Thanks to all the Candidates who stepped up for this course to enhance the wellbeing of Athletics in the Boland.
